

Maximise your living space with the MiTek **Posi-Attic**

Combining the solid feel of a MiTek Posi-Joist™ with the benefits of a conventional attic truss, the MiTek Posi-Attic enables you to span further than ever before.

The strength of the Posi-Joist™ floor provides increased living space within the attic, delivering maximum value to the home owner.

The Posi-Joist™ floor is ideal for easy installation of Heat Recovery Ventilation Systems, soil pipes and the increasingly diverse range of services installed in modern homes.

For details of your nearest Posi-Attic manufacturer call us on 01384 451400 or email us at info@mitek.co.uk
